STAFFRIGHT AX

IS WORKFORCE COMPLIANCE AN ISSUE?

StaffRight AX is a time and attendance solution with a built-in web interface that gives you quick access to the attendance information needed to manage your people better. It is an integrated Microsoft Dynamics 365 for Operations solution that links with AX Project Management & Accounting, Human Resources, Resource Calendar and Advanced Payroll AX.

StaffRight AX simplifies the assignment of rotations, manages leave requests, sends time records to payroll for processing and, updates employee time records in various AX modules. Employees can review and update their own schedules, check vacation bank balances, and view their payslip history. Managers can view unit schedules, manage leave requests from their team, assign new rotations, and more.

The benefits that your company can gain from StaffRight AX include:

- Reduced scheduling conflicts by giving employees the freedom to access and update their information from a web browser

- Decreased effort required to send scheduling data to payroll by through seamless integration with Advanced Payroll AX

- Increased visibility into the availability of your staff through integration with AX Resource Calendar so confirmed shifts and staff leave requests are updated in real-time

- Simplified compliance reporting by generating time premiums, such as overtime or evening differentials, with information coming from Advanced Payroll AX

With StaffRight AX, your business can have access to an ERP add-on solution that simplifies time and attendance entry and increases efficiency through employee self-service features.

HOW DOES STAFFRIGHT AX SUPPORT MY BUSINESS NEEDS?

Payroll Integration	• Integrate with Advanced Payroll AX for payroll processing and generating advanced workforce analysis reports to improve decision making
Project AX Integration	• Reduce the chance of errors by exporting time records directly from StaffRight AX to Project AX for automatic timesheet creation • Save time by allowing StaffRight AX to automatically create timesheet periods and insert timesheet lines and properties for multiple projects
Timekeeping	• Easily configure rotations that generate standard time records for employees so that only exception time, such as absences or overtime, needs to be entered
Leave Management	• Manage multiple entitlement banks for workers, such as annual leave, sick and unpaid leave, with accruals that can be based on custom calculations • Reduce the administrative burden through employee self-service leave requests which update the AX Resource Calendar once approved to provide company-wide absence visibility
Work Calendar	• View an employee's scheduled activities for a 6-week period as well as historical and future records that can be adjusted to reflect actual time worked as needed • Receive instant visual recognition that a change to the originally scheduled activity has been made with colour-coded unbudgeted time
Self-Service	• Allow employees to view payslips, request time off, fill out timesheets, and view reports and shifts from a touchscreen device and any web browser
