

WE FIT YOU

STAFFRIGHT AX

StaffRight AX is a web-based time and attendance solution that gives you quick access to the attendance information that you need to manage people better. It is an add-on Microsoft Dynamics AX, and links with AX Project Management and Accounting as well as Human Resources.

StaffRight AX simplifies the assignment of rotations, manages leave requests, and sends time records to payroll for processing. Employees can use self-service to review and update their schedules, check vacation bank balances, and view their payslip history. Managers can view unit schedules, manage leave requests from their team, assign new rotations and more. When combined with Advanced Payroll AX, the solution generates time premiums, like overtime or evening shift differentials, so that you have the information and records you need to make great decisions around your workforce management.

Benefits and Features

Timekeeping

Configure rotations and time clock integration to simplify timekeeping tasks. Rotations generate standard time records for employees, and can be of any length and combination of shifts. Only exception time such as absences or overtime needs to be entered. Optional time clock integration can show where employees swipes deviate from expected schedules.

Work Calendar

View an employee's currently scheduled activities across any time period, as well as historical and future records. Individual records for each day can be changed easily to reflect actual time worked. Leave activities and additional shifts (unbudgeted time) are coloured coded to provides users with instant visual recognition that a change to the originally scheduled activity has been made.

Leave Management

Manage multiple entitlement banks for workers, such as annual leave, sick and unpaid leave. Accruals can be based on length of service, hours worked and other more complex calculations. Reduce administrative burden through employee self-service leave requests.

nt Company: Australia demo company | Current Context: 31/10/2014 7:30:42 AM

Sunday	Monday
04 D1, 00000025 8:00 AM - 4:00 PM (8.00)	05 D1, 00000025 8:00 AM - 4:00 PM (8.00)
11 D1, 00000025 8:00 AM - 4:00 PM (8.00)	12 D1, 00000025 8:00 AM - 4:00 PM (8.00)

Occurrences
1.00

Note
Balances reflect amounts up to end of last pay period.

Annual Leave
36.79 hours

Multiple Jobs

Easily manage employees with multiple concurrent jobs while paying them correctly to reduce scheduling stress and make assigning conflicting shifts to employees who work more than one position no longer an issue.

Technical Requirements

StaffRight AX is an add-on to Microsoft Dynamics AX ERP software. This platform determines basic hardware and software requirements. Please note that some Microsoft Dynamics AX components have additional software requirements, including IIS 7.0 and SharePoint Foundation. To see the full list of minimum hardware and software requirements for Dynamics AX, please visit Microsoft Technet.

Server

- Windows Server 2008 R2 or higher recommended
- Microsoft SQL Server 2008 R2 or higher recommended, 64-bit required

Workstation

- Operating System: Windows Vista with service pack 2, Windows 7, Windows 8 32 or 64 bit
- Browsers: Internet Explorer 8.0 or higher; Firefox 3.5 or 11.0 (for R2 and above); Safari 5.1.2
